NCI/NCIF VOC DETAILS

The primary goal at Strategic Visionary Solutions is to protect your assets and increase maintenance cycles. Strategic Visionary Solutions supports protection of the environment as a crucial and imperative component of our mandate.

Strategic Visionary Solutions provides a line of NCI/NCIF (Nano-Clear® Industrial/Fleet) products that are VOC (Volatile Organic Compound) compliant, contain very low quantities of VOC elements and are safe to use for industrial purposes.

The following chart provides a clear comparison of how Nano-Clear® NCI/NCIF ranks with respect to other common industrial coating products. The only other coatings with lower VOC values are temporary protective products and surface cleaners.

PRODUCT CATERGORY	VOC CONCENTRATION LIMIT
Adhesion promoter	840 g/L (7.01 lbs/gallon)
Multi-color coating	680 g/L (5.67 lbs/gallon)
Pre-treatment wash primer	660 g/L (5.50 lbs/gallon)
Uniform finish coating	540 g/L (4.50 lbs/gallon)
Underbody coating	430 g/L (3.58 lbs/gallon)
Color Coating	420 g/L (3.50 lbs/gallon)
Single-stage coating	420 g/L (3.50 lbs/gallon)
Primer sealer	340 g/l (2.84 lbs/gallon)
Truck-bed liner coating	310 g/L (2.58 lbs/gallon)
Primer surface coating	250 g/L (2.08 lbs/gallon)
Clear coating	250 g/L (2.08 lbs/gallon)
Other coatings	250 g/L (2.08 lbs/gallon)
Clear coatings (NCI/NCIF)	150 g/L (1.25 lbs/gallon)
Temporary protective coating	60 g/L (0.50 lbs/gallon)
Surface cleaners	50 g/L (0.41 lbs/gallon)

Nano-Clear® products are manufactured in the United States.
