**HONDA FOUNDRY FACTORY
 FACILITY COATING**

NANO-CLEAR® INDUSTRIAL COATING FOR HONDA FOUNDRY FACILITY RESTORATION

**Chad Ricketts Pressure Washing
 Hillsdale, Michigan**

Customer:

Chad Ricketts, Owner
 Chad Ricketts Pressure Washing
 Hillsdale, Michigan

Project:

Restoration of Honda Foundry exterior using Nano-Clear® Industrial (NCI) for increased UV and chemical/organic protection.

Project Location:

Coldwater, Michigan

Applicator:

Chad Ricketts
 Hillsdale, Michigan

Coating Formulation:

Nano-Clear® Industrial (NCI) coating

Application System:

Graco airless sprayer with 519 tip

Date:

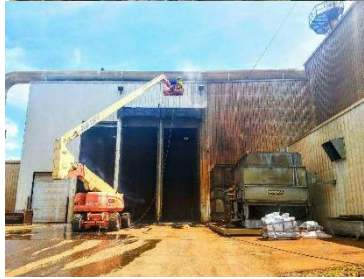

Application: April 2019
 48°-55°F overcast and windy

BEFORE

AFTER

Before and After Restoration of Honda Foundry Facility using NCI

PROJECT OVERVIEW:

Chad Ricketts owner of Chad Ricketts Pressure Washing was contracted by Honda Foundry for corrosion mitigation and recoating of their Coldwater Foundry. The facility has continual severe corrosion and chemical damage due to its industrial processes. Previous coatings on the building did not last more than 3 months. Nano-Clear Industrial was selected to provide superior chemical and environmental protection along with increased maintenance cycles saving infrastructure funding. The facility was power washed, corrosion mitigated, functional surface treatment with an adhesion promoter, primed and painted with an NCI topcoat.

COATING FORMULATION:

NCI – a crystal clear, aliphatic, moisture cured, one component polyurethane/polyuria hybrid formulation with extreme cross-link density for UV, CHEMICAL AND ABRASION RESISTANCE.

NCI is formulated to penetrate and fortify existing paint systems (newly painted or highly oxidized), not replace them.

Applications: Heavy equipment, ships, external structures, fleet equipment, facilities, fences (metal and wood), above ground storage tanks, equipment, bridge rails and signs that have degraded paint/coatings from UV, chemical and abrasion forces.

RESULTS:

The exterior of the Foundry was recoated with a protective **NCI** coating that provides it with over 10 years of UV and corrosion protection.
