Guatemala,

To whom it concerns:

We have use and apply Nano Clear Coating on our energy plants and machinery and we are pleased with the quality and the result of the coating on our surfaces. Surfaces coated with Nano Clear are easier to clean, maintain, and stay in better conditions for a longer period of time.

We want to recommend the services of the company RDN and the benefits that their coatings give to any client. If more information is needed please feel free to contact us.

Regards

Lic. Wilson Santay
Gerente de Ventas
Division de Generacion y Motores Diesel
