SEA RAY BOAT RESTORATION

NANO-CLEAR® INDUSTRIAL COATING FOR SEA RAY BOAT RESTORATION

MacRay Harbor Marina
Harrison Township, Michigan

Customer:

MacRay Harbor Marina
Harrison Township, Michigan

Project:

Restoration of a Sea Ray boat using Nano-Clear® Industrial (NCI) for increased UV protection and reduced maintenance.

Project Location:

Harrison Township, Michigan

Applicator:

VSE Corporation
Sterling Heights, Michigan
POC: Greg Bock

Coating Formulation:

Nano-Clear® Industrial (NCI) coating

Application System:

Brush, roller and hand wipe

Date:

Application: May 2015
70°F sunny, warm, humid

Before and After Restoration of a Sea Ray Boat using NCI

PROJECT OVERVIEW:

VSE Corporation received a request from MacRay Harbor Marina to restore a customer's Sea Ray boat with sun damaged paint, hull staining from algae and microbial bacteria resulting in an overall degraded external condition. VSE Corporation was contracted to restore the exterior of the boat to a like-new condition. The boat was prepared per standard practices, removing zebra mussels, algae staining, and other organic materials and fixing cosmetic flaws, in preparation for a final NCI coating. The customer intended the restoration to enhance the resale value of the vessel. The protocol for NCI coating was followed for this project. The customer eventually sold the boat for \$8,000 above asking price and credited it to the like new NCI finish.

COATING FORMULATION:

NCI – a crystal clear, aliphatic, moisture cured, one component polyurethane/polyuria hybrid formulation with extreme cross-link density for UV, CHEMICAL AND ABRASION RESISTANCE.

NCI is formulated to penetrate and fortify existing paint systems (newly painted or highly oxidized), not replace them.

Applications: Heavy equipment, ships, external structures, fleet equipment, facilities, fences (metal and wood), above ground storage tanks, equipment, bridge rails and signs that have degraded paint/coatings from UV, chemical and abrasion forces.

RESULTS:

The exterior of the boat was fully restored with a protective NCI coating that provides it with over 10 years of UV and corrosion protection.
